I. CALL TO ORDER

The Board of Selectmen (BOS) meeting was called to order at 7:00 P.M. by First Selectman Spielman.

II. PLEDGE OF ALLEGIANCE: The Pledge of Allegiance was recited.

III. CITIZENS’ FORUM:

Jeremy Galeota, 6 Virginia Drive, said that at the last meeting he asked about the bonding and estimated interest costs for the Windermere School project. He said he is asking how that information can be included in the true project costs. He gave the example of an individual who takes out a mortgage and is told what the principal and interest are going to be so they know the whole package. Mr. Galeota said that with an item as large as the Windermere School building project, it’s important to put the whole cost out there and on paper for residents to see.

Mr. Kenzenkovic said that Mr. Galeota raises a good point and since it isn’t possible to have that number with any accuracy, all that can be said is that at this point in time the interest rate is
whatever it would be at that point in time. He said that this project won't be going to market for another 3 to 4 years and it can't be predicted what the interest rate will be. He added that he consulted with the Town’s Bond Counsel, Mr. Gillette, and confirmed that this cannot be included in the bond question because of the uncertainty with regard to market conditions, and that is state law. With regard to when the referendum goes forward, something could be put in the explanatory document that would indicate that based on a given day, a certain interest rate would incur certain costs, but it would be an estimation. Mr. Galeota said that the entire project is an estimation and the interest is a big number; taxpayers should be made aware that this is part of the cost of the project.

Peg Busse, 37 Abbott Road, suggested that the Board of Selectmen and other major boards consider videotaping their meetings as is now going to be done in South Windsor. South Windsor is going to doing this at no cost as they are working with the school. She added that she will consider drafting a proposal with the school department to see if this can happen.

E. Discussion: Forensic Accounting Analysis — Finance Department

Kevin Kenzenkovic stated that he has put forth for consideration a recommendation to retain the services of an individual or a firm that would provide technical assistance with the end-of-year close-out and audit process. The technical assistance would include but not be limited to assisting the current Finance Department staff in completing the required actions to close-out fiscal year 2018-2019 audit. This person would also conduct an analysis of end-of-year close-out procedures, recommend changes in operations and document recommended protocols to be implemented for future audits.
The Town has been in a situation where it has been perpetually late with the audit filings; it would be helpful to have some form of knowledge of what should be done by auditors and what should be done by staff. He added that an RFP for audit services is currently underway with heavy emphasis on getting the audit done in a timely fashion going forward. Mr. Kenzenkovic reviewed several benefits that can be derived from completing the audit on time including reducing the workload on current staff, aiding in the easement of the replacement of the Finance Officer, and providing Town staff, Board of Selectmen and Board of Finance members with updated formal procedures for end-of-year closeout which will translate into protocols, benchmarks and a means of accountability for both staff and auditors to complete audit work in a timely manner within established deadlines.

Mr. Kenzenkovic said that once the Town retains the services of a new audit firm, the Town should hold the firm accountable for filing the audit on time. It would eliminate the need for the Town to continually report to the Municipal Finance Advisory Commission of the Office of Policy and Management regarding habitual late filings.

Mr. Kenzenkovic reviewed other benefits such as the enhancement and perhaps improvement of the Town’s bond rating and providing the Town with recommendations on efficiencies within the Finance Department and its operations, including proper distribution of workload and responsibilities and recommended staffing changes. Finally, and if requested, the firm may be a resource to provide additional recommendations on organizational operations should the Town implement a new administrative structure. This will include some realignment of responsibilities among the current positions.

Ms. Spielman added that this will be helpful during the transition to the new accounting software that is included in the budget for FY 2020-2021. Mr. Turner asked if this software will go into effect for FY 2020-2021; Ms. LaPlante said it will go into effect in FY 2021-2022. Mr. Turner added that this still leaves FY 2018-2019, FY 2019-2020 and FY 2020-2021 still delinquent and in need of reassessment. Mr. Stomberg asked if the software could be purchased later; Ms. LaPlante said that it will take up to six months to implement. Mr. Kenzenkovic said that you will have to run both systems parallel for some time during the transition which is time-consuming. He added that the Town has been doing audit and budget at the same time, which is a burden to the staff.

Mr. Turner asked if anyone is working on the FY 2018-2019 budget now; Mr. Kenzenkovic said that Mahoney and Sabol will complete the FY 2018-2019 audit. The new auditor will complete the 2019-2020 audit going forward with up to a five year renewal. Mr. Turner asked where the auditors are with the FY 2018-2019 audit; Mr. Kenzenkovic said that they have not started. Ms. LaPlante added that Mahoney and Sabol had advised the Board of Finance that they will not be able to start until February due to the Town’s habitual lateness.

Mr. Turner asked Mr. Rachek what the Board of Finance thinks about this recommendation and he responded that the Board of Finance is not happy that the audit is always late. He said he believes that Mr. Kenzenkovic is recommending what should be done. Mr. Turner said that this includes more than the audit; it includes an audit of the function of the Finance Department. Mr. Kenzenkovic said that this is an important part of the process. Mr. Kenzenkovic said that he used the word forensic, but to clarify he is suggesting technical assistance for best practices. Mr. Turner
said in line with this, the BOS has been asking Finance Officer candidates to give the current processes a fresh look. He added that he believes that the Board of Selectmen generally support this type of review as best practices come along and should be considered. Looking at or considering a Town Administrator, it's valid that this position could also provide some advice or guidance moving in that direction as well. Mr. Kenzenkovic added that internally he and the staff are doing a desk audit to review each staff member's function to consider best practices.

Peg Busse said that the idea of getting help during this time is something that should have happened a long time ago. She added that the use of the word forensic is dismaying. She stated that she was contacted by people who were concerned about the use of the word and she believes it is the wrong use of the word and best practices is a better choice of words.

MOVED (TURNER), SECONDED (FERRY) AND PASSED UNANIMOUSLY THAT THE BOARD OF SELECTMEN INSTRUCT THE FIRST SELECTMAN TO CONTINUE THE INVESTIGATION INTO THE MEMO DATED FEBRUARY 6, 2020 [ATTACHED] FROM KEVIN KENZENKOVIC, TEMPORARY FINANCE DIRECTOR, FOR CONSIDERATION OF TECHNICAL ASSISTANCE.

RE: Consideration of Technical Assistance

This day the Request for Proposals (RFP) for auditing services has been posted and distributed to some nine (9) qualified CPA firms. With that the Town has taken a first and major step in achieving the goal of correcting the situation of late completion and filing of annual audits/financial reports. To that end, and to further assist in meeting this important goal, the following is offered for consideration and discussion.

The Town could consider retaining the services of an individual or firm to provide technical assistance with the end-of-year (EOY) close-out and audit process. The technical assistance provided should include, but not be limited to:

- Assisting current finance department in completing required actions to close-out FY-2018/20.
- Conducting a forensic analysis of EOY close-out procedures, recommend changes in operations and document recommended protocols to be implemented for future audits.

There are a number of benefits that can be derived from the provision of technical assistance. These include:

- Reducing the work load on current staff who have taken on additional responsibilities in the absence of a permanent Finance Officer.
- Aid/case the transition to a new/replacement Finance Officer who will likely be hired shortly and will assume the role right in the middle of budget development and the FY-2018/19 audit.
- Provide the Town, Staff, Boards of Selectman and Finance with updated formal procedures for EOY close-out which will translate into protocols, benchmarks and a means of accountability for both staff and auditors to complete audit work in a timely manner and by established deadlines.
- Eliminate the need for the Town to have to continually report to the Municipal Finance Advisory Commission of the Office of Policy and Management (OPM) regarding the habitual failure to file the audit in accordance with State established deadlines.
- Enhance and perhaps improve the Town’s bond rating – timeliness of audit completion is a major factor impacting ratings for all three (3) major agencies (Moody’s/S&P/Fitch).
- Provide the town with recommendations on efficiencies within the finance department and its operations, proper distribution of workloads/responsibilities and any recommended staffing changes.
- Finally, and if requested, the firm/individual so engaged might also be a resource to provide additional recommendation on organizational operations should the town implement a new administrative structure (town administrator/manager).

While this is proposed to address more immediate concerns, the Town should not rule out continuing to engage the individual/firm again in the near future. In particular, this would include the anticipated transition to a new financial accounting software package and if a new auditor is selected for the FY-2020 fiscal year. In both instances there will be additional demands on staff – such transitions are never as smooth or painless as initially led to believe. Providing some continuity with the engaged individual/firm could well prove very beneficial to the Town and most helpful to staff.

As noted, this is presented to you and the Board of Selectman for consideration and deliberation. I will respond to any questions or provide additional research and information as needed/requested.

Kevin Kenzenkovic
Temporary Finance Officer
